

The Federal Government has given up on supporting your access to General Practice care.

From 2010–2019 health inflation was about **5% per year**.

Your Medicare rebate increased by only 0.5% per year.

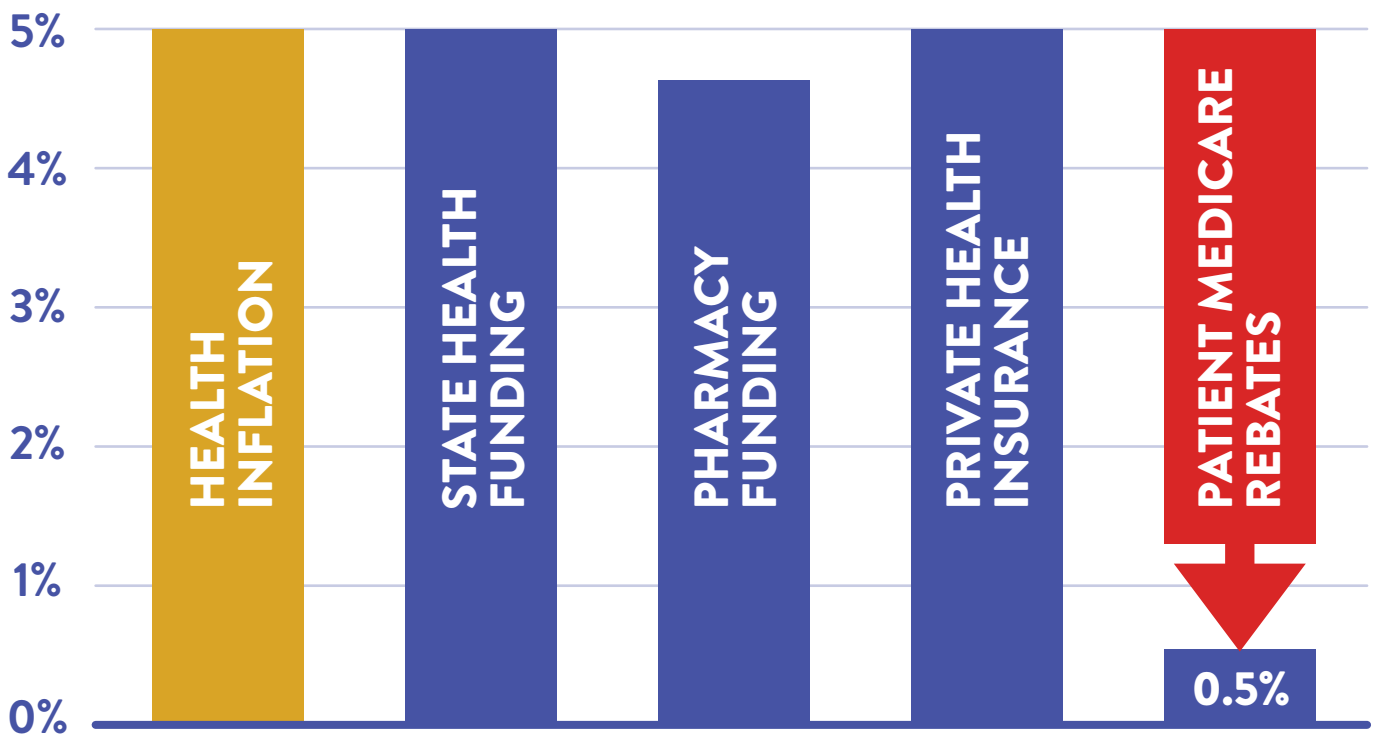

Table: Average annual increase in funding from Federal Government 2010–2019

A 2019 election promise to invest an additional \$450M into General Practice has not been delivered.

Why is *Your Health* being undervalued?
