

## Why We Cannot Bulk Bill Everyone

From 1 November 2025, the government's new bulk billing incentive rewards short, rushed consults.

We believe your health deserves time and quality, not quick medicine.

- ✗ Bulk billing does not cover the real cost of care
- ✗ Medicare will pay more for very short visits
- ✗ This pushes doctors to rush patients through

We will remain private billing so we can:

- ✓ Give you the time you deserve
- ✓ Provide safe, thorough care
- ✓ Stay sustainable for the future

**Thank you  
for supporting  
quality care**
